Mathematics / Statistics

31) What happens to the shape of a frequency polygon when the number of observations and classes increase?

- Tends to become jagged
- Remains the same
- Tends to become increasingly smooth
- Varies if data becomes more reliable

32) which one of the given options is an answer for the length of the line segment given that the coordinates of A is (2,2) and B is (9,11).

- 94

- 114
- 134
- 154

33) Let us assume that a student is chosen from a random Sample of 80 students out of which YOU have opted for Maths, 20 opted for physics, and 10 have opted for both Maths and Physics. Find the probability that the student has opted for Either Maths or Physics?

- $\frac{1}{2}$
- $1\frac{1}{2}$
- $2\frac{1}{2}$
- $3\frac{1}{2}$

34) Which of the following is true about the sampling error?

- It decreases as sample size increases
- It does not depend on population size under study
- It cannot be reduced by an appropriate sampling plan
- It cannot be measured and controlled in probability sample

35) Which of the following is a method used for collecting Secondary data

- Experiments
- Personal Interview
- Questionnaire
- Government Publications

36) Let us assume set A = {1, 2, 3, 4}, set B = {3, 4, 5, 6, 7}, find the Symmetric difference of set A and set B?

- {1, 2, 3, 4, 5, 6, 7}
- {5, 6, 7}
- {1, 2, 3, 4}
- {1, 2, 5, 6, 7}

37) In a town the number of men is 151,781 and the number of women is 156,964. Which of the options given below represent the demographic sex ratio correctly.

- 97.5
- 96.7

- 98.2
- 95338)

A car company manufacturing company is having a demand of 100 cars in the month of September, 200 cars in the month of October, 300 cars in the month of November and 400 cars in the month of December which one of the given options represent a 3month moving average for the month of January?

- 300
- 350
- 400
- 450

39) One of the options given below represents a state with the highest Negative decadal population growth based on the census data of India 2011 Which of the options is correct?

- Kerala
- Goa
- Nagaland
- Tamil Nadu

40) If $N = 200$, which of the options match the ultimate class Frequencies, given that there are two independent attributes $A=100$ and $B=140$?

- 60
- 70
- 80
- 90

General Economics

41) Prime Minister Narendra Modi launched which Among the following campaigns with an objective To incentivize States to devolve 3Fs (functions, funds and functionaries) panchayats?

- Rashtriya Gram Swaraj Yojana
- Deendayal Antyodaya Yojana

- The total production rises at an increasing rate
- The total production rises at a diminishing rate
- The total production starts decreasing
- The total production is maximum possible

46) When two goods are perfectly complementary, the indifference curve

- intersects each other
- is shaped
- is a straight line
- is concave at the origin

47) Which of the following is example of variable cost?

I) Rent

II) Utility cost

III) Employee salaries

- Only
- Only I
- Both I and II
- Both II and III

48) Which of the following options points to demand for one product as a consequence of demand for a parent product?

- Company Demand
- Composite Demand
- Short-term
- Derived Demand

49) The cost Inflation Index is mainly used to compute:

- Business income
- Long term capital gain
- Short term capital gain
- Income from the other sources

50) When a commodity is sold at a lower price in "Foregin Markets and at a higher price in "Domestic markets" then The strategy is known as

- Price Celling
- Dumping
- Multi plant monopoly
- Peak Load Pricing

Knowledge of Computer Application

51) Convert the below Decimal value to its equivalent in Binary? 12

- 1100
- 1101
- 1110
- 1111

52) Which of the following is NOT an open source Operating System?

- Windows

- FreeBSD
- Android
- Linux

53) Which of the following is an Input device of the computer?

- Projector
- Plotter
- Printer
- Barcode

54) Which one of the following is a shortcut key to start a slide show From the beginning in MS Powerpoint?

- F5
- F3
- F6
- F8

55) Which one of the following is called as primary memory Of Computer?

- RAM
- External Hard disk
- Pen Drive
- CD/DVD Drive

56) What does www"stand for?

- Wide World Web
- World Wide Webmaster
- World Wide Web
- Wide Web World

57) Supercomputers are used in which of the following Arcas?

(I) Weather forecasting

II) Quantum mechanics

III) Oil and gas exploration

- Only I
- I and II
- II and III
- I,II and III

58) Which among the following is NOT an antivirus software?

- Norton
- McAfee
- AVG
- Trojan Horse

59) What is FTP in Data communication?

- File Transport Provider
- File Transfer Protocol
- File Process
- File Transfer Programming

60) Which among the following is the input device used Specially for checking the answer sheets of an examination having multiple choice question?

- Bar Code Readers
- Optical Character Reader
- Magnetic Ink Card Reader
- Optical Mark Reader

61) What does "HTTP" stand for?

- Hypertext twisted pair
- Hypertext Transfer protocol
- Hyperlink Transfer placard
- Hyperlink Transfer protocol

62) Which one among the following MS Excel functions is used to concatenate extra spaces from a cell/string?

- LEN
- TRIM
- REPLACE
- SPACE

63) A program or piece of code that is loaded onto your computer without your knowledge and runs against your wishes is called as

- Software
- Anti-virus
- Hardware
- Computer Virus

64) What does IMAP stand for with respect to emailing?

- Intranet Message Access Protocol
- Intranet Message Access Protocol
- Intranet Mail Access Protocol
- Internet Message Access Protocol

65) SSD is a new generation of storage device used in computers

- Solid-State Drive
- Storage-State Drive
- Solid-Storage Drive
- Simple-Storage Drive

66) BIOS is the program which helps to initialize the hardware during computer booting process. What is the full form of BIOS?

- Basic Input Output System
- Basic Intel Operating system
- Basic Input Operating System
- Basic Input Operating server

67) What does ASCII stand for?

- American Standard Code For Information interchange
- American Standard Code For International information
- American Standard Code For Integrated information
- American Standard Code For International interface

68) Which one of the following software is an email client?

- Microsoft Internet Explorer
- Windows 98

- Microsoft Power Point
- Microsoft Outlook

69) What is the function of CTRL + Bin MS-Word?

- it converts the selected text to bold
- The selected text appears in italics
- it underlines the selected text
- It changes the selected text color to blue

70) Laser printing is an electrostatic digital printing process What is the unit of printing speed in laser printer?

- Dots per second
- Dots per line
- Lines per page
- Pages per minute

71) Which of the following is the cheap, secure and easiest Way of storing huge volume of digital data and can be Accessed from anywhere by using internet

- Store the data as Physical record
- Store the data in cloud
- Store the data in external hard disks
- Store the data in local system

72) Which of the following is NOT feature of primary memory

- it is accessed directly by the processor
- it is the fastest memory available
- its contents are lost once power is switched off
- it is non-volatile

73) Which of the following is referred as a process of Training a computer system to make accurate predictions When fed data?

- Machine Learning
- CPU Learning
- Bootstrapping
- Data Process

74) Which of the following statements is NOT true about Control Unit of a Computer?

- It transfer data to Arithmetic and logical Unit
- it fetches results from memory to output devices
- It is a component of a SMPS
- It directs flow of data within CPU

75) What is the full of VPN with respect to networking?

- Virtual peer Network
- Virtual Private Network
- Virtual Public Network
- Virtual Protected Network

76) What is the full form JPEG with respect to image file formats?

- Joint Photo Experts Group
- Joint Photographic Experts Group
- Joint Photo Experts Graphics
- Joint Photo Efficient Group

77) Match the following

- 1-c,2-b,3-a,4-d
- 1-d,2-c,3-a,4-b
- 1-b,2-a,3-c,4-d
- 1-d,2-a,3-b,4-c

78) A spurious computer program that replicated itself at a swift pace is called _____.

- Trojan horse
- bombs
- worms
- cracks

79) Which of the following is/are the main function(s) of an Operating system?

i) Manage the Processor and assign tasks which are to performed

ii) Allocated memory and storage areas to the system and user

programs and data.

iii) Control, co-ordinate various input and output devices.

iv) Accessing world wide web without internet connectivity

- i & ii Only
- i, ii and iii Only
- i, ii, iii and iv
- iii & iv Only

80) Which of the following is are computer application(s)?

I) Data processing

II) Business Transactions

III) Video conferencing

- Only I
- Only II
- I and III
- I, II and III

Accountancy and Book Keeping

81) John and James are partners sharing profits equally Jack enters the partnership and contributes a Land whose Historical cost is Rs 50,000.

Book Value is Rs 25,000 and Current Market Value is Rs30,000. By what amount Jack's Account should be increased?

- Rs 50,000
- Rs 30,000
- Rs 25,000
- Rs 1,05,000

82) What is the basis of allocation of carriage inward cost Among pre and post incorporation period?

- Time
- Sales

- Purchase
- Credit Sales

83) The public Financial Management System (PFMS) Was earlier known as

- Central Plan Schemes Monitoring System (CPSMS)
- Controller General of Accounts (CGA)
- Central Sector Scheme of Planning Commission
- Core Banking System (CBS)

84) Which account is generally used in single entry and in Complete records to obtain the amount of credit sales Made during an accounting period?

- Accounts Payable Account
- Total Revenue Account
- Debtors Account
- Stocks Account

85) Drawings account is classified under

- Real Account
- Personal Account
- Impersonal Account
- Nominal Account

86) What does a Nominal account having debit balance Represent ?

- Income/Gain
- Cash
- Asset
- Expenses/Losses

- Purchase increases debit; income decrease credit
- Expense increases debit; income decreases credit
- Receiver is debit; giver is Credit
- Receiver is credit; giver is debit

Science

111) An amazing fact about firefighter's uniform is that it can withstand up to 220°F and protects a person from concentrated sodium alkali absorption. Hence it is important to choose the right fire extinguisher to put out fires. Which one of the following gases is used to extinguish fires?

- Hydrogen
- Butane
- Methane
- Carbon Dioxide

112) Vector borne diseases account for more than 17% of all infectious diseases causing more than 700,000 deaths annually. Which of the following diseases is NOT vector borne?

- Dengue
- Chikungunya
- Filariasis
- Cholera

113) Earthing wire is used in AC power circuit wiring for protective grounding which color insulation is done over it 0 per BIS code?

- Green and Yellow
- Blue and Brown
- Black and Red
- White and Gray

114) Which of the following substances is used in cold countries To melt ice accumulated on the roads during winter?

- Salt
- Urea
- Sand
- Oil

115) Identify the Versatile organ from the facts given below.

(I) it is the largest organ in human body

(II) It is sensor packed with nerves for keeping the brain in touch with the outside world

(III) it manufactures vitamin D for Converting calcium into healthy bones

(IV) It is the body largest waste removal system

- The skin
- The liver
- The intestines
- The heart

118) In humans, there are 1 vitamins which are essential for healthy .bleeding of gums and delayed healing of wounds is deficiency

Of which of the following vitamins?

- Molybdenum

120) Have you ever wondered, trucks carrying heavy loads have more than four tyres!

This is because more tyres increase the area of contact with the road and this results in reduced pressure on the tyres. Pressure plays an important role in our daily life. Which one of the following is NOT a Unit of pressure

- Pascal (Pa)
- Bar (b)
- Torr (mmHg)
- Newton (N)
